The table above presents terminal usage figures for the seven-month period February 1979 through August 1979. Usage is shown in connect-minutes by keyboard number and by project number. The total for the period is 318,556 connect minutes. This is an increase of 38% over the same period in the previous year.

Project numbers 1-2 are Computer Center accounts
 30 contains Admissions accounts
 50 contains Faculty accounts
 75 is for special accounts.

The remaining project numbers indicate the graduation year of the students with those account numbers. Totals are stated in connect-minutes.

Usage Summary for the year 1978-79

September through January	293,516	connect minutes
February through August	318,556	connect-minutes
TOTAL	612,072	connect minutes

Usage figures for the year 1978-79 are 16% higher than those for the previous year.

USER DISTRIBUTION

The table below gives the number of graduates in the class of 1978-1979 who possessed account numbers for use of the computer. As expected, a higher proportion of B.S. candidates had accounts than B.A. candidates. It should be noted that the statistics include those students who completed graduation requirements in August as well as those who received their degrees at the May commencement.
